From Data to Insights: SQL for Power BI

COURSE

EXODUS EXPERTS HEREBY CERTIFIES THAT

Victor Junior B. Enejente

Successfully completed an 8-hour hands-on course in SQL for Data Analysts using Power BI, focused on building real-world data solutions. The course covered essential SQL commands for querying, filtering, and aggregating data; designing and modeling a data warehouse; and integrating the structured data into Power BI reports. It included practical development of a staging environment, creation of fact and dimension tables, and automation techniques to support scalable Business Intelligence workflows.
